No Settlement in Strike.

As yet, there has been no settlement made in the carpenters' strike, and from present indications it promises to be a long drawn out affair, as the matter was not a question of wages or hours, but a point on which the contractors do not think they ought to have been involved, therefore making the matter doubly hard to settle.

Many of our people have gone on their vacations and others are planning where they will enjoy themselves. Verily this is a queer world. For instance, many Chicago people are in the servants' heaven of delight if they can only spend a few weeks in Crown Point, considering it a veritable "Garden of Eden," while Crown Pointers are anxious to leave town and enjoy themselves at the various amusement places provided for the sight-seer in Chicago and vicinity. Money burns in people's pockets and the only remedy is to get rid of some of it, whether they really enjoy themselves or not.

After visiting the steel plant and taking in the other sights offered by the thriving young city, they returned to their boat and came back to where they had arranged with H. Mucho for a fish dinner at his summer resort there. The lake was so rough, however, they were unable to make a landing and Mr. Mucho had to send out after them in small boats. The first boat load to be taken off also found it impossible to land and the boys were compelled to take off their clothes and wade ashore. The others were more fortunate and got in all right. Both horses are in training and the race will take place here on July 4. Judging from the talk going the rounds considerable money will change hands on that date.

Next Sunday the old Gary theater will open again for the amusement of the public and will try again to make good in the vaudeville line. For the convenience of those who use poslam for pimples, blackheads, blotches, red nose, acne, herpes and other minor skin troubles, a special 50-cent package has been adopted. In addition to the regular two-dollar jar, which is now on sale at all leading drug stores.

In eczema cases, poslam stops the itching with first application and proceeds to heal, curing chronic cases in two weeks. In minor skin troubles, results show after an overnight application. For a free experimental sample, write direct to the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

HOW THE INDIANA LINE-UP LOOKS NOW.

(Continued from page 4.)

was two years ago, when the normal republican majority was greatly reduced. Kuhn supporters, however, would want odds and big ones if they were placing any money on the outcome.

Nothing short of a democratic landslide will prevent Congressman Jesse Overstreet from serving another term. The democrats forfeited whatever chance they might have had of defeating Overstreet by nominating Charles Korbly, who possesses no special qualifications for the office. Democrats, who insist that the republicans will lose Marion county next fall because of the graft cases, etc., do not carry their predictions far enough to include Korbly. The nominee is the brother of Bernard Korbly, democratic district chairman, and was nominated at a snap convention, which was ignored by the Fogarty democrats of the county.

Congressman Adair has been renominated by the democrats of the Eighth and the republicans have pitted Nathan B. Hawkins of Portland, against him. A correspondent who knows anything knows enough not to make any predictions about the Eighth, which is always politically chaotic. Adair has made a good congressman. He is well thought of by both parties. Hawkins, too, is regarded as a strong man. If the republicans get together they can elect their man as the district is normally theirs, but if the Crocker fight continues, the factions in the republican party will probably reflect Adair.

Factional feeling is rather strong against Congressman Charles B. Landis of the Ninth. A hostile group is even now circulating pledges against him. Many republicans are said to have signed cards, pledging themselves to vote against the Delphi man. His opponent is Martin A. Morrison of Frankfort, who thinks he is going to win. Odds again would be asked by the democrats if they were going to post any bets.

Edgar D. Crumacker of the Tenth, ought to pull through with a majority as large or larger than ever before. He was renominated without opposition and factionalism is now strong in his district.

WHY SO WEAK?
